

Comparison Shopping Worksheet

Name: _____

Show all work for the following questions.

1. Joe Shopper is starting his Christmas shopping early. He looks through the flyers for good deals. In the Future Shop flyer he finds a 32" Sony LCD HDTV for \$599.99 regular price now with 20% off. He finds the same TV in the Walmart flyer for \$459.99 and 15% off.

Calculate the final price for the TV at each store including Indiana sales tax of 7%.

2. Sally Saveabuck makes a shopping trip to TJ Max to find some unique Christmas gifts. She finds the following:

- Nike Sneakers – regular price of \$69.99 on a 25% off sale
- Black & Decker Coffee Maker – regular price of \$89.99 on a 30% off sale
- 8GB iPod touch – regular price of \$250 on a 20% off sale

Calculate Sally's final total on her purchases including Michigan Sales Tax of 6%.

3. Jill Bargainhunter sees a great sale on Wii system online from a store in Detroit, MI. She has friends travelling that way next week and wonders if she should have them pick her up the Wii. The deal is 30% off of a regular price of \$250! Jill's other choice is to buy it at home South Bend, IN for the regular price of \$209. Which place should Jill buy it to get a better deal?

Calculate the price of the Wii in Detroit including sales tax of 6% and also in SB with sales tax of 7%.

Comparison Shopping Worksheet

Name: _____

4. Tom Findadeal goes to his favorite clothing store and checks out the sale rack. There is a sign stating that for today ONLY receive 50% off and then another 10% off all clothing on this rack. Tom quickly finds a few items (regular price listed):

- Shirt - \$29.99
- Jeans – \$58.99
- 3 t-shirts - \$15.50 each
- Jacket - \$65.99

Calculate Tom's total that he will owe at the checkout including sales tax of 11%.

5. Sue Shopper is looking for Black Friday deals. She sees that Pedigree Dog food is on sale. Meijer has a 25 pound dog food bag on sale for \$22.99 while Walmart has one for 20 pounds listed for \$18.59.

Calculate the unit cost of each bag and list which bag is the better buy.

6. Mrs. Carlson wants a new washer and dryer. She has been watching for Black Friday deals. Lowes lists a Kenmore washer and dryer set, washer 25% off at 845.00 each. HH Gregg has been advertising a Whirlpool set 30% off, Washer is 889.00 and Dryer is \$912.00.

Calculate the total cost of each set. Which set would be the best choice? Remember to also include Indiana sales tax of 7%.
